

Cohu Completes Acquisition of Xcerra

October 1, 2018

POWAY, Calif.--(BUSINESS WIRE)--Oct. 1, 2018-- Cohu, Inc. (NASDAQ: COHU) today announced the completion of its acquisition of Xcerra Corporation. The combination creates a global leader in back-end semiconductor equipment and services, and printed circuit board test with a breadth of products that are unmatched in the industry.

"The acquisition of Xcerra accelerates our strategy to diversify our product offerings and customer base, expanding Cohu's addressable market to approximately \$5 billion across semiconductor test and handling equipment, thermal subsystems, test contacting, vision inspection, MEMS and PCB test. This combination also further strengthens our ability to fully capitalize on the growth opportunities in our key target markets of automotive, industrial, IoT and communications," said Luis Müller, Cohu's President and CEO. "Although softening in the mobility market combined with current geopolitical uncertainty are creating near-term headwinds, we remain confident about the long-term growth opportunities in these markets as well as our ability to deliver on our synergy goals and to profitably grow Cohu in the years ahead," added Müller.

The transaction is expected to be immediately accretive to non-GAAP earnings per share and generate over \$20 million of annual run-rate cost synergies within 2 years of closing, excluding stock-based compensation and other charges. Cohu expects to achieve an additional \$20 million of annual run-rate synergies over the three to five-year mid-term from products and facilities consolidation.

A conference call to discuss Cohu's third quarter financial results, the go-forward strategy and fourth quarter guidance for the combined company will be held in early November.
